

Building climate-capable government together

International currents, serving through this shifting social
conditions, and connecting with nature

Bonnie Penfold, Environment and Climate Change Canada
April 15, 2025

International Currents

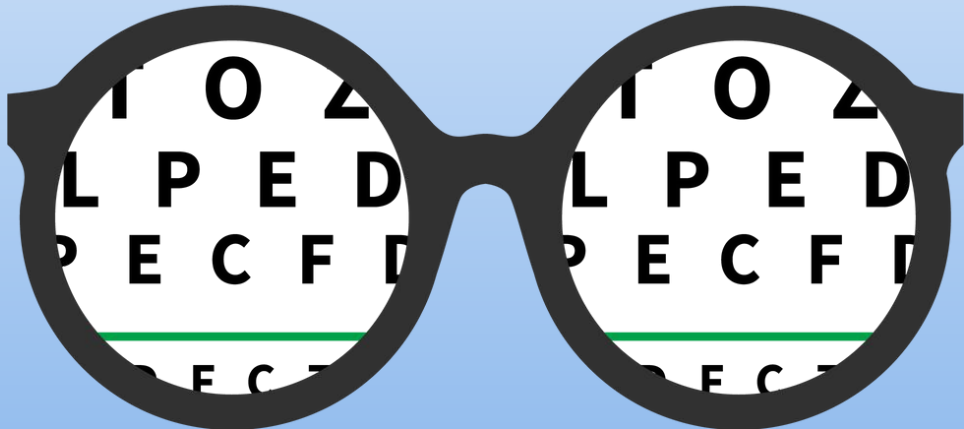

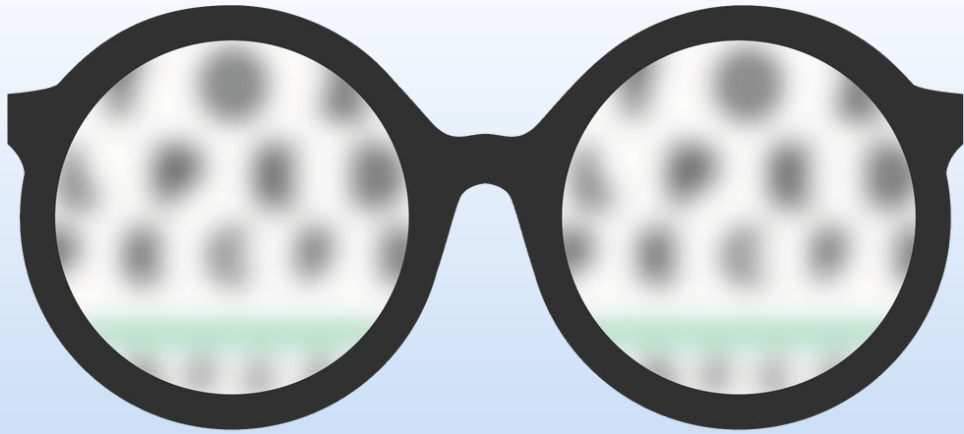

**Core
Climate Literacy**

**Audience
Segmentation**

**Transformative
Skills**

Shifting social conditions for climate action

**Significant swings in public opinion
and demands for climate action from
2020-2025; growth of political
narratives militating against action**

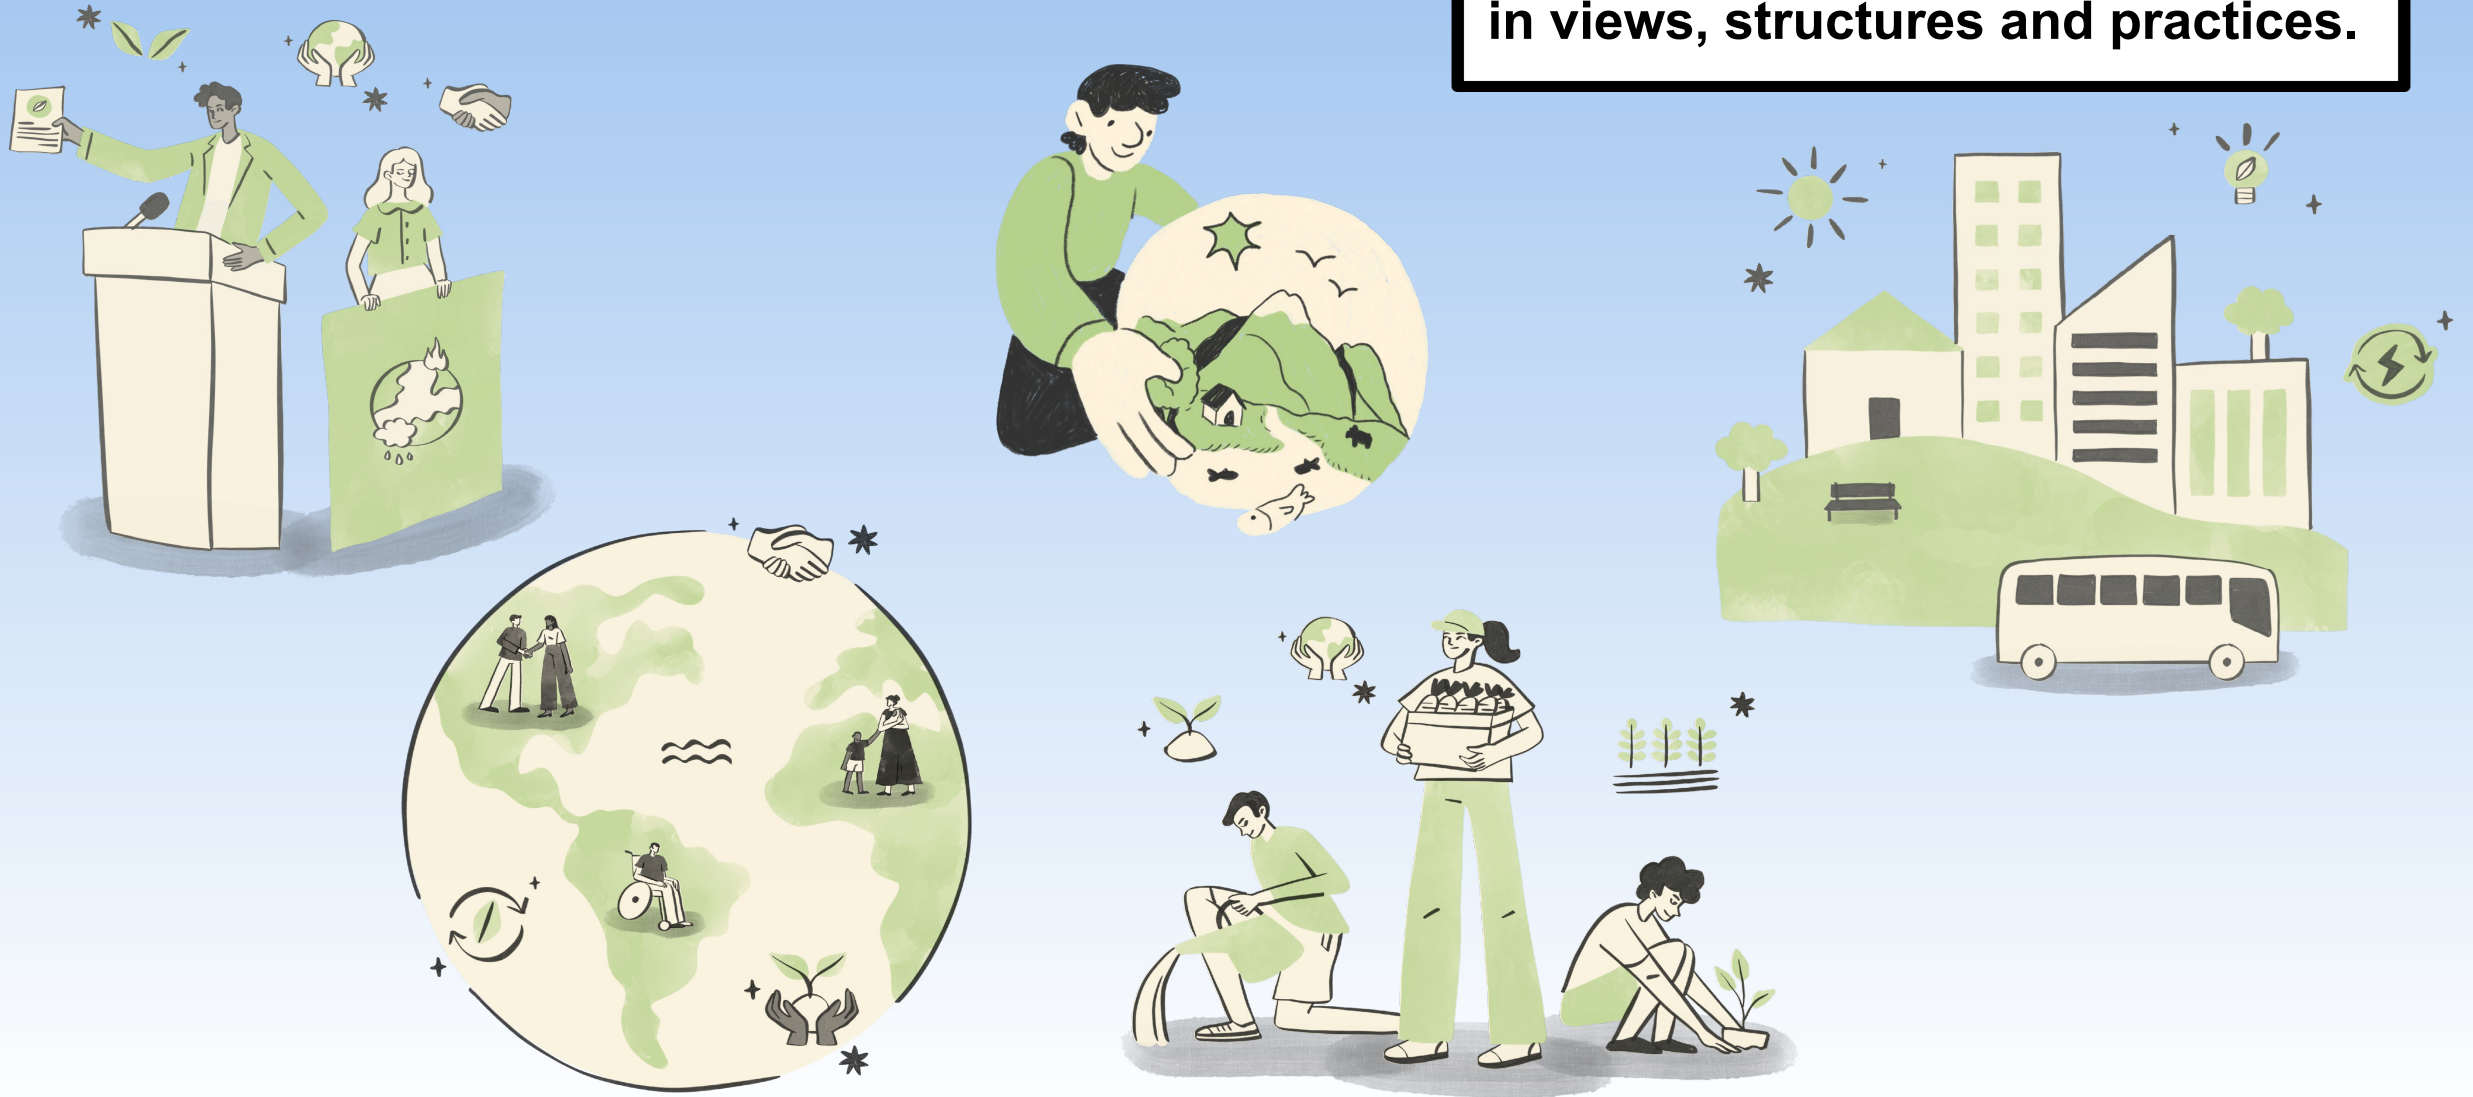

**Climate-informed governance is a
long-term investment in
affordability and stability.**

Nature Interconnectedness

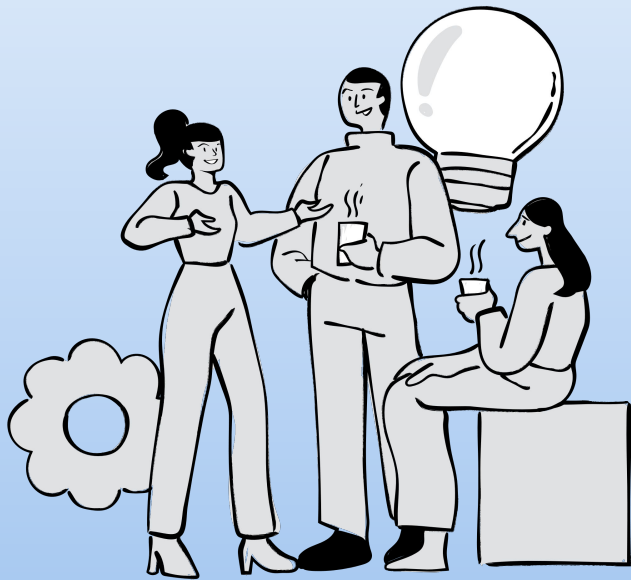

Powerful Strategies for Transformative Change

Powerful Strategies for Transformative Change

Transformative change is defined as fundamental, system-wide shifts in views, structures and practices.

What does it mean for you?

Canada's Public Service Climate Literacy Suite

Hosted at the Canada School of Public Service in open-access viewer:
